<b>12. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. Clearly show all pertinent details including dates, depths, volumes, etc.</b> Resolute proposes to sidetrack to the Desert Creek IIC Horizon on the McElmo Creek Unit N-13. Sidetracking from the existing wellbore is planned in order to get past expected formation damage from earlier cement squeeze work in the DC-IIC target intervals. Kick and drop techniques will be used, with the new wellbore kicking off near the top of the Upper Ismay and planned to be approximately 100 feet away from the original borehole at the IIC level. Chinle isolation is included. Attachment includes procedure, plat, existing and proposed wellbore diagrams, BOP diagram and water source wells.
